

SUNBELT SAFETY SERVICES

Corporate brochure

Your safety is our priority.

Sunbelt is a trusted and recognised industry partner. We provide safety solutions and state-of-the-art H₂S safety equipment to the offshore and onshore oil & gas and renewable energy industries. We strategically integrate health, safety and environmental management systems for our customers, aligned with regional and international industry standards. We are proud to be part of the **Lamprell Group**.

WHO WE ARE

As part of the London listed Lamprell Group, Sunbelt provides state-of-the-art H₂S safety equipment and services as well as highly skilled and specialised professionals to the energy industry.

With over 40 years of experience, our qualified team of experts is dedicated to creating, strengthening and promoting a strong safety culture and environment within your worksite.

We support and assist our clients in the following key areas:

- H₂S and safety equipment rental and/or purchase
- Equipment recertification, servicing and maintenance
- Equipment installation and commissioning
- Specialised safety professionals
- Safety training, consulting and supervision
- Expert H₂S safety services

Our team of committed professionals tailor safety solutions according to each customer's specific needs. Whether your team is setting up safety services, need installation support, equipment, training or emergency response services, we can help.

OUR VISION & VALUES

OUR VISION

Our vision is to be a leading safety partner to the energy sector consistently delivering safe, high quality, competitive, on-time solutions for our customers.

UNITED BY OUR VALUES

How we do business is as important as what we do. Our values unite us, underpin our culture, define who we are and make us distinctive. They guide our behaviours and actions. As part of the Lamprell Group we share the same values which combine to drive excellence.

Safety: We deliver world class safety standards and leave nothing to chance, so everybody goes home safely.

Fiscal responsibility: Because every employee influences our costs, we are all accountable to ensure that we achieve the most cost-effective solutions.

Integrity: We conduct our business honestly, with professional integrity, fairly and transparently, and we are open and ethical in our day-to-day dealings with all stakeholders.

Accountability: We deliver what we say we will.

Teamwork: We strive to work together with our stakeholders and believe great teams can achieve incredible results.

OPERATIONAL AND CONSULTING SERVICES

Safety equipment servicing and maintenance

Sunbelt is committed to providing the highest levels of after-sales and maintenance services for the equipment and solutions that it offers to its customers. Our agency agreements include personnel who are factory trained to troubleshoot any problem that may arise.

We provide the following solutions:

- US DOT approved hydrostatic testing of cylinders
- SCBA servicing, flow test and posi-check
- Gas detection, repair and calibration
- Breathing air compressor maintenance
- Fire extinguisher service and repair
- Fall arrest equipment service and re-certification

H₂S equipment rental and installation

Sunbelt offers a large selection of high-quality rental equipment such as gas detection and alarms, breathing apparatus, breathing air systems and various components.

Our inventory holds items including:

- Breathing air systems
- Fixed/wireless gas detection systems
- Portable gas monitors
- Fire ignition systems
- Air monitoring systems
- Auxiliary safety equipment

Safety training and supervision

Sunbelt is driven by a group of highly skilled H₂S instructors and field consultants who works with your personnel to ensure that they perform their duties safely when working in an H₂S environment. We provide your team with H₂S equipment training and knowledge on the dangers of working around hydrogen sulphide.

Our courses in H₂S safety awareness and breathing apparatus familiarisation follow the API-RP 49 and 55 guidelines, meets the OSHA requirements for drilling, workover and production facilities, and are as per internationally approved standards ANSI Z-390.1-(R2017), ANSI Z-490.1 and NFPA.

Other H₂S safety training courses offered include:

- H₂S basic awareness training
- Train the trainer

Fall protection system supply and installation

Sunbelt is a distributor and authorised installer of MSA Latchways range of fall protection equipment. Our dedicated team is trained and authorised to supply, install, repair and re-certify fall protection products in the Middle East region, in particular in the UAE, Qatar, KSA, Iraq and Bahrain.

Fire suppression system design, supply and installation

Sunbelt strives to ensure that every customer is entirely satisfied with the products and services it provides. We design and supply fire suppression systems and our team of qualified professionals can install these and train your staff to ensure safe and efficient use.

We supply the following systems:

- CO₂ systems
- FM200, NOVEC system and inert gas systems

PAGA system, fire and gas detection system

We cater to the Public Address & General Alarm (PAGA) system needs for all our clients and can support tailored requirements. We also supply and install fire and gas detection systems complete with detectors, control panels and audio-visual alarms.

PARTNERING TO **ADD VALUE**

Sunbelt partners with a number of highly experienced and leading industry experts in the manufacturing of equipment.

TELEDYNE
GAS AND FLAME DETECTION
Everywhere you look™

Teledyne Gas and Flame Detection's range of products includes fixed gas and flame detection products, portable gas detectors as well as area and wireless gas detectors.

Honeywell

THE POWER OF **CONNECTED**

Honeywell Analytics and BW Technologies provide portable gas detection systems, ideal for confined spaces, spot leak testing and mobile use.

Bauer Kompressoren manufacture high-pressure compressors and components such as filter systems and regeneration dryers.

blacklinesafety

Blackline provides wearable safety technology, personal and area gas monitoring, cloud-connected software and data analytics to meet demanding safety challenges.

VENUS

Venus Safety & Health manufactures neck-up personal protective equipment.

Badger
Fire Protection

Badger Fire Protection has been manufacturing industrial and commercial fire extinguishers for more than 100 years.

Hundal Group

The Hundal Group is a trusted leader in the production of industrial safety gloves.

The Safety Company

MSA provides safety products to protect workers exposed to a variety of hazardous conditions.

3M

SCOTT
Fire & Safety

The 3M Scott product line includes self-contained breathing apparatus, supplied air and air-purifying respirators as well as various accessories.

WHERE TO FIND US

Sunbelt's main operational centres and workshops are situated in the UAE, Saudi Arabia, Iraq and Qatar. They are ideally located to access major oil & gas markets in the Middle East and North Africa and have the capability to service all our client's safety needs. Our facilities offer:
